

Eureka Prize (Innovative Solutions to Climate Change)

Purpose

The IAG Eureka Prize for Innovative Solutions to Climate Change is designed to highlight outstanding work by an Australian individual, group or organisation that demonstrates a commitment to pursuing innovative solutions to the challenges of climate change. This work may be research; development of new technologies or practices; new markets, products or services; or advocacy that addresses the challenges of climate change.

General Eligibility

Individuals and groups may apply. Entries should specifically address how their work meets the following judging criteria:

1. Innovation

- In what way is the work and/or its results innovative?
- To what extent has the work developed or extended techniques or methods not normally used?

2. Impact

- In what way does the work demonstrate commitment to pursuing solution(s) to a challenge of climate change?
- What particular challenge of climate change is addressed by the work?
- What is, or is likely to be, the impact of the work on this challenge? How has the work been effectively communicated to appropriate audiences?

Closing Date

Awards are presented annually. The 2009 closing date was May 1. Applicants must register online as well as submit an application.

Assistance Provided

The Prize is worth \$10,000.
